ABSTRACT

This document lists resources and suppliers for teachers who want to obtain balanced and accurate resources for teaching about Arab culture. The Arab-American community provides a wealth of personal experience and expertise. There is no more effective teaching aid than first hand accounts of major historical events, sharing a taste of Arabic home cooking, playing live Arabic music, or modeling Arabic fashions. American-Arab Anti-Discrimination Committee (ADC) members in over 70 chapters across the country have participated in school and university cultural festivals and taken part in teacher training seminars. The organization offers information on discrimination against and stereotyping of Arabs and on the Middle East conflict. Items listed provide background on Arabs and the American Arab heritage and culture. Other resources are listed under the individual organizations that provide them. Listed resources include maps, atlases, lesson plans, supplementary reading materials, and posters. The booklet is divided into four sections. The first lists organizations with addresses, brief descriptions of the purposes and goals of the group, and the resources that each offers. The second section lists publishers, the third periodicals, and the fourth audio visual sources for films, videos, and workshop kit. In addition, a list of university related Middle East outreach programs is included at the end. This list gives the university, the institute name, contact person, address, and telephone number for each program. (DK)

ADC Guides are published by the ADC Research Institute on subjects of special interest to the Arab-American community. The American-Arab Anti-Discrimination Committee (ADC) is a non-sectarian, non-partisan service organization committed to defending the rights and promoting the heritage of Arab-Americans. The largest grassroots Arab-American organization in the United States, ADC was founded in 1980 by former U.S. Senator James Abourezk in response to stereotyping, defamation and discrimination directed against Americans of Arab descent. ADC serves its nationwide membership through direct advocacy in cases of defamation, through legal action in cases of discrimination, and through counseling in matters of immigration.

The ADC Research Institute publishes information on issues of concern to Arab-Americans and provides educational materials on Arab history and culture as well as the ethnic experience of Arabs in American. It also sponsors summer internships in Washington, D.C., for college students.

In recent years, the United States experienced an upsurge of keen interest in the Arab world among educators and students. ADC's education campaign has sought to satisfy this need for quality resources, written, audio-visual and human, about the Arab-American community and the cultures and history of the Middle East.

Part of ADC's concern has been anti-Arab defamation and stereotyping in the media and even in many textbooks used in school systems around the country. ADC publishes materials which present a positive understanding of Arab culture and our rich heritage to make sure that none of our children ever returns home from school ashamed to be an Arab. ADC continues to promote tolerance, understanding and appreciation for all cultures.

We appreciate that teachers are motivated by a desire to provide our children with the best possible education, but quite often when it comes to the Arab world, teachers don't know where to turn for balanced and accurate resources. ADC's *Teachers' Resources on the Middle East* answers this need.

The Arab-American community itself provides an amazing wealth of personal experience and expertise. As educators well know, there is no more effective teaching aid than firsthand accounts of major historical events, sharing a taste of Arabic home-cooking, playing live Arabic music or modeling Arabic fashions. Many ADC members in over 70 chapters across the country have participated in school and university cultural festivals and taken part in teacher-training seminars. Please contact the ADC National Office if you are interested in the "human resources" we offer to enrich your teaching experience.

ADC will continue to update this material on a regular basis and to stay abreast of new opportunities to improve education about the Arab world.
